

Meeting the Demand for Greater Connectivity

Valmont® Telecom earned its global leadership position through engineering expertise, manufacturing processes honed over time and a reputation for product durability that is decades in the making. No matter how your wireless network grows and changes over time, Valmont® Telecom offers the structures and accessories to evolve with it.

Self Supporting & Guyed Macro Towers

We offer a variety of robust, low-maintenance, self-supporting, and guyed towers. Our space-saving, multi-sided Olympus™ Macro Towers are available in heights exceeding 200 ft, providing a reliable and efficient solution for your network infrastructure needs.

Wireless Site Components

Valmont Site Pro 1® is the industry's premier manufacturer and distributor of wireless site components, providing innovative solutions designed to improve the reliability, efficiency, and structural integrity of wireless infrastructure through high-quality mounts, accessories, and more.

Passive Intermodulation (PIM) Mitigation Solutions

When it comes to mitigating Passive Intermodulation (PIM), PIM Shield® products are the industry benchmark. Our purpose-built, state-of-the-art facility in Colorado is run by renowned PIM experts who work exclusively to ensure the industry can trust any product that carries the shield.

Natural & Architectural Concealment Solutions

Our Larson™ creative concealment solutions are designed to help your communications structures blend in with the landscape and surrounding environment.

Small Cell Solutions

From the top to the bottom of the pole, we provide an all-in-one suite with everything needed for rapid deployment and easy maintenance. Our ConcealFab® line includes premium concealment options, poles, and more.
